

Final Assessment DVD

An in-depth look at the RICS Final Assessment Interview, including short film clips taking you through each step of the interview process.

The Final Assessment DVD explains what is expected of an APC candidate, some of the key things to think about when preparing for the interview and the components of the interview.

The DVD also contains detailed steps through the final assessment in twelve film clips. These clips feature a recently successful APC candidate and a panel of three assessors who demonstrate how they would handle each aspect of the interview in a real assessment.

The DVD covers before the interview, the presentation, questioning, rules of conduct and ethics, current affairs and concluding the interview.

The DVD demonstrates the style of questioning during the interview, it does not give guidance on specific pathways or questions candidates may be asked as each candidate will be asked questions based on their own experience and declared competencies.

Running time approximately 45 minutes.
